

AVIATOR

5T, 10T, 15T & 30T High Tech Standard Portable Aircraft Weigh Pads

AVIATOR-Standard 5T, 10T, 15T & 30T

AVIATOR-Standard 5T, 10T, 15T & 30T

Smart Touch Screen Controller Aircraft M6+

AVIATOR is a durable high tech precision scale designed to excel in demanding commercial and military aviation environments. Constructed with high quality state of the art materials, ensuring reliable and accurate long-lasting performance in extreme conditions.

What sets AVIATOR apart is its exceptional accuracy, equipped with advanced weight sensors and calibration, providing precise weight and balance measurements—critical for optimising flight safety, fuel efficiency, and load management.

Built-in center-of-gravity (COG) calculation streamlines complex processes, saving time and reducing human error while ensuring compliance with strict safety standards.

User-friendly and portable, featuring an intuitive interface plug-and-play functionality for quick deployment. Compact, lightweight design allows for easy transport and storage, making it ideal for both large airports and remote location airstrips.

Features:

- .6061- T651 aviation Aluminium alloy scale body (mild steel ramp).
- . 1.6" LCD display easy to read instant display.
- . Built-in center-of-gravity (COG) calculation.
- . Connect multiple weigh pads to 1 touch screen wired controller.
- . Battery life for the pad display is 500~700 charge-discharge cycles.

AVIATOR Standard pad size range from 570-575(L) x 456(W) x 55-58mm(H).

AVIATOR Low profile pad size range from 570(L) x 405(W) x 45(H). Shipping Weight approx. 26kg per pad.
